

ADITYA S ACHAR

AI/ML Engineer · Machine Learning · Enterprise AI · RAG · Backend Integration

Mangalore, India · GitHub: github.com/adityamacto · LinkedIn: linkedin.com/in/adityasachar/

PROFILE

AI/ML Engineer focused on practical systems across machine learning, enterprise AI, RAG and backend integration. Currently working on ML prediction for semiconductor workloads and enterprise AI integrations.

EXPERIENCE

Rambus Chip Technologies — IT Machine Learning Engineer · Oct 2025 – Present

- Built end-to-end ML pipelines for LSF/Spectre workloads covering preprocessing, feature engineering, training, evaluation and deployment.
- Developed Enterprise RAG systems using vector databases, semantic search, embeddings, reranking and LLM orchestration.
- Built MCP-based integrations for ServiceNow, Jira and Jenkins using OAuth 2.0 and PAT-based authentication, REST APIs and lightweight backend services.

Stovekraft — Project Engineer Intern · Feb – May 2025
